

LED Wall mounted is designed for general lighting applications. It features the latest LED technology, resulting in low power consumption compared to a typical CFL downlight, and delivers consistent light output, stable color performance and high color rendering. They are very easy to install, and their long lifetime means an end to the hassle of relamping.

## Features & Benefits

- An Attractive design that perfectly fits with all interiors.
- Integrated design, slim profile, easy to install.
- Good colour uniformity and colour rendering (CRI>80).
- More than 70% of energy saving when compared to CFL lamp.
- World class, approbated quality components (Leds / Driver / etc.).
- Life time of over 50, 000 hours.
- Low maintenance cost.

## Specifications

Family Name	: Wall Star
Model	: PLCL (543)
Wattage	: 6 Watt (100mm x 100mm)
Lumen / Watt	: 125 lm/W
Lamp Colour	: 2700K, 4700K, 6500K
Colour Rendering Index	: > 80
Optics	: Het diffuser
Driver	: Integrated (Constant current driver)
Housing	: Aluminum housing finished by white coating
Lifetime	: 50, 000 hrs
Classifications	: IP20
Input Voltage	: 180 - 270V AC - 50Hz
Power Factor	: > 0.95
Installation	: To be mounted on wall surface
Application	: Lobbies, Carridor, wash room

### Accessories & Controls

In-built integrated electronic LED driver

### Installation

Suitable for surface mounting on wall.
